LISA JETTON

Full Stack Developer

Ldjetton@gmail.com | 512-758-3747 | Austin, TX 78732
www.lisajetton.com | linkedin.com/in/lisa-jetton

Full Stack Developer, experienced Personal Banker, and recent graduate from the University of Texas at Austin's Coding Bootcamp. Enjoys creative challenges, new ideas, and working together with passionate people to build new realities and develop dreams.

Experience with JavaScript, React, HTML, CSS, Bootstrap, Materialize, jQuery, Node.js, Express, MySQL, Sequelize, Mongoose, and MongoDB.

FEATURED PROJECTS

Mavens and Mavericks

o A social media meeting place that offers the opportunity to meet and be paired with mentors or mentees within a judgement-free zone. Matching is completed through a sorting logic based on each user's career level, industry experience, and coding language(s) of choice. This web app is built with React, JSX, and React Router for full client-side functionality and supported by Node.js, Express, Axios, and Mongoose on the server-side.

o Full-Stack developer in a group of four.

o https://mavensandmavericks.github.io/Mavens_and_Mavericks

Star Wars React

o A memory game based in React. This game offers an assortment of pictures for the user to select; each time an image is selected, the arrangement of photos is reorganized. The goal is to click through the entire assortment of pictures without pressing the same picture twice. Can you do it? App was built with React, JavaScript, JSX, CSS3 and React-Materialize, and hosted on Heroku.

o Sole Developer.

o https://github.com/JettTech/React-Memory-Game

RELEVANT EXPERIENCE

3P Civic Hackathon by McCombs School of Business   **February 16-17, 2018**
Participant in the Planet Initiative to benefit Austin Energy Green Building

o Developed *Green Building*, an interactive JavaScript, HTML5/CSS3, and Node App that aims to encourage awareness of the Austin Energy Green Building Organization and its impact on local and global living, as well as support challenges that incentive self-reporting of energy use data.

o Front-End web developer in a group of three developers.

o https://github.com/PlanetHackathon/AEGB

Women Who Code Hackathon   **September 6 -8, 2017**
Participant and Winner of Zoe Quinn Obstacles Overcome Award

o Developed *Taco Quest*, a React and Firebase App with a mission to help democratize rating of local taquerias by facilitating discovery and hosting game "challenges" to incentivize dining visits.

o Full-Stack developer in a group of four.

o https://github.com/JettTech/taco-quest

Sangita Charitable Trust – Chennai, India   **January – April 2006**
Publicity Assistant
o   Developed a 10-minute DVD presentation as a creative solution for Sangita's digital marketing goals in 2006. This presentation was used to gain support at international conferences for 2 years.

WORK HISTORY

JP Morgan Chase, *Personal Banker*   **June 2016 – July 2017**
o   Gathered personal data, evaluated customer needs, and delivered financial solutions that allowed the customer to bank with confidence and understanding.

JP Morgan Chase, *Senior Teller*   **March 2014 – June 2016**
o   Quickly learned Federal banking regulations as well as Chase policies and procedures to ensure compliant and efficient banking transactions. Assisted with translations in English, French, and Spanish.

o   Received highest classification for performance evaluation in 2015 and 2016 and promotion to Personal Banker.

EDUCATION

University of Texas at Austin - Austin, TX   **July 2017 – February 2018**
UT Austin - Professional Coding Bootcamp
Awarded the Full-Stack Developer Certificate: MERN Stack

University of California at Davis - Davis, CA   **September 2007 – September 2012**
UC Davis - College of Letters and Science
Majors: B.A. International Relations, B.A. French Language and Literature

L'Institute d'Etudes Politiques - Lyon, France   **September 2009 – June 2010**
International Law, Economy, and Politics Track
Awarded the Political Science Certificate (Certificat d'Etudes Politiques)
